## INTRODUCTION

Beauty is a thriving industry in Washington State. Services provided by persons in the industry range from haircuts and manicures, massages, and tattoos to body piercing. In addition, many salons also sell beauty products to their customers. Various factors determine whether persons performing these and other services are subject to the Department of Revenue's tax registration and reporting requirements.

Whether a person must register, file a return, and pay state taxes depends on the nature of the services performed. Under Washington's tax laws, as provided by the Revised Code of Washington (RCW), some services are considered professional services while others are specifically defined as retail sales. The imposition of various taxes, such as the business and occupation (B&O) tax, retail sales tax, and use tax, depend on whether an activity is classified as a service or a retail sale.

The purpose of this reporting guide is to assist persons in the beauty industry and tax practitioners to better understand how Washington's excise taxes, mainly business and occupation tax and retail sales tax, apply to various beauty-related services performed in this state. Our goal is to provide easy-to-understand information, so that persons in the beauty industry can learn the tax responsibilities that accompany operating a stand-alone business or as an independent contractor.

The information contained in this reporting guide is current at the time of publication. It is important to remember that state tax laws change on a regular basis and this reporting guide does not reflect any changes occurring after printing.

We understand you may have questions or want additional information that this reporting guide does not cover. For assistance with specific tax questions, please call the Washington State Department of Revenue's Telephone Information Center at 1-800-647-7706 weekdays, from 7:30 a.m. to 5:00 p.m. Additional information about the Department of Revenue's services is available in the "Services" section of this reporting guide.

### **DEFINITIONS**

**Booth/Chair Renter:** A booth/chair renter is an independent person who performs cosmetology, barbering, esthetics, or manicuring services that require a professional license and pays a fee to the salon for use of the booth/chair. Generally, a booth/chair renter is required to have their own tax registration and is required to report their own income.

**Business and Occupation (B&O) Tax:** The B&O tax applies to the gross amount received from conducting business. There are different reporting classifications for retail sales, wholesale sales, professional services, etc. Each classification has its own tax rate. Persons performing more than one activity may be subject to B&O tax under more than one reporting classification.

**Consumer:** A consumer is any person who uses tangible personal property and receives services defined as retail sales. Such tangible personal property or services may be for personal use or for use when conducting business activities. If you're a seller, you need to know who is a consumer to know when to collect sales tax. If you're a buyer, you need to know when to pay sales tax and, if sales tax hasn't been paid, when to pay use tax or deferred sales tax.

**Deferred Sales Tax:** This tax applies under conditions where a person acquired goods without paying sales tax when sales tax was due. Generally, deferred sales tax applies when someone uses a resale certificate to purchase goods that are used and not resold (without use). When reporting deferred sales tax, place the taxable amount on the use tax line of the Combined Excise Tax Return.

**Gross Amount:** The term "gross amount," which appears at the top of column one on the Combined Excise Tax Return, is a "catch-all" term for whichever of the following terms is applicable to your business: "gross proceeds of sale," "gross income of the business," or "value of products." The gross amount includes all consideration received without deductions for the costs of doing business or other expenses.

**Independent Contractor:** An independent contractor is usually a person who engages in business activities other than as an employee. Determining whether a person is an independent contractor or an employee is important because independent contractors are subject to the B&O tax (and other business taxes) and employees are not. Various factors determine whether one is an employee or an independent contractor. Generally, independent contractors are entitled to the gross income of the business, are liable for business losses and expenses, file a statement of business income and expenses (Schedule C) for federal income tax purposes, and may employ others, etc.

**Master Application:** This application is completed by persons that are required to register with one or more state agencies. Persons completing the application are assigned a UBI/tax registration number. The business then receives a Master License to post at the business location.

# **DEFINITIONS** (continued)

**Resale Certificate:** A completed resale certificate is given by a buyer to a seller to verify that the goods or retail services are being purchased for resale in the normal course of business without intervening use.

**Retail Sales Tax:** A tax imposed on the buyer of goods and certain retail services. However, the seller is responsible for collecting the tax from the consumer and remitting the tax to the Department of Revenue. The sales tax is a combined state and local tax.

**RCW:** Revised Code of Washington

**UBI/Tax Registration Number:** Sometimes called a registration, tax reporting account, "C," or resale number, the Unified Business Identifier (UBI) number is a nine-digit number used to identify persons engaging in business activities. The number is assigned when a person completes a Master Application to register with or obtain a license from state agencies. The departments of Revenue, Licensing, Employment Security, Labor and Industries, and the Corporations Division of the Secretary of State are among the state agencies participating in the UBI program.

**Use Tax:** Use tax is imposed on the acquisition of goods for consumer use in this state when the state's retail sales tax has not been paid. With respect to the use of goods as a consumer, either sales tax or use tax, but not both, applies. In this manner, use tax serves to complement the sales tax. Like the sales tax, the use tax is a combined state and local tax. Use tax rates and sales tax rates are the same.

WAC: Washington Administrative Code

# **BUSINESS AND OCCUPATION (B&O) TAX**

With few exceptions, virtually all persons conducting business activities within the state of Washington are subject to the B&O tax. Persons performing more than one activity may be subject to B&O tax under more than one of the reporting classifications. The measure of the B&O tax is generally the gross income of the business or the gross proceeds of sale, there are no deductions for costs or expenses associated with conducting business.

#### **B&O** Tax Classifications Common to the Beauty Industry

Most persons in the beauty industry will report under one or more of the B&O tax classifications. The most common classifications for beauty salons are retailing, service and other activities, and wholesaling.

#### **Retailing B&O Tax Classification**

Income from conducting activities defined as retail sales or sales at retail is subject to B&O tax under the retailing classification. Persons in the beauty industry making retail sales or providing services that are defined as retail sales must also collect the retail sales tax. (See "Collection of Sales Tax.") The measure of tax under the retailing classification is the gross proceeds of sale. Generally, this is represented by the selling price.

#### What are retail sales?

The definition of a "retail sale" or "sale at retail" includes various activities. The following are retail sales:

- ◆ Sales of tangible personal property to consumers. A consumer is generally any person who uses tangible personal property or receives services defined as retail sales. Salons and other persons in the beauty industry typically sell various health, hair and body care products, nutritional supplements, and other sundry items to their clients. The sale of these items to clients are retail sales.
- ◆ Services performed on personal property of consumers. Washing and styling of wigs, hairpieces, extensions, etc., is a retail sale.
- ◆ Steam and Turkish baths. Charges for spas and baths are subject to sales tax.
- ◆ Tanning and tattooing services. Tanning and tattooing services are specifically defined as retail sales

# **BUSINESS AND OCCUPATION (B&O) TAX (continued)**

#### **Retailing B&O Tax Exemptions and Deductions**

As previously noted, there are no deductions from the B&O tax for the costs associated with doing business. However, the law allows certain exemptions and deductions. Many apply to both the retailing B&O tax and the retail sales tax. However, there are also many sales tax exemptions for which there are no comparable B&O tax exemptions.

There are few retailing B&O tax exemptions and deductions that apply to the beauty industry. The most common include the following:

- ◆ Casual Sales: Sales of tangible personal property by a business that does not generally sell such goods. Such sales are generally related to a sale of capital assets. For example, a salon may remodel its business location by installing new fixtures, such as mirrors, chairs, sinks, etc. The salon sells the existing fixtures to another salon. The sale of these fixtures is a retail sale and subject to sales tax. However, the salon does not routinely sell fixtures. Although the salon must collect sales tax from the buyer, the sale qualifies as casual and isolated. Under the retailing B&O tax classification, the salon may take a "casual sales" deduction equal to the amount of the sale.
- ◆ Returns and Allowances: A salon may take a B&O tax deduction for returned goods for which the buyer receives a full refund including the proportional amount of sales tax. The refunded sales tax should be separately stated on the refund invoice.
- ◆ **Bad Debts:** A deduction is allowed on returned checks and other income that has been reported on your tax returns that you are not able to collect on.

Persons making retail sales must collect retail sales tax from the customer unless the sale is specifically exempt. (See "Collection of Sales Tax section.") Persons making retail sales are subject to the retailing B&O tax even if the sale is exempt from sales tax.

#### Wholesaling B&O Tax Classification

The definition of a wholesale sale includes the sale of tangible personal property to a person who is not a consumer and who provides a resale certificate. (See sample on page eight.) Income from wholesale sales is subject to B&O tax under the wholesaling classification. The measure of tax under the wholesaling classification is the gross proceeds of sales. Generally, this is represented by the selling price.

For example: A salon may sell hair care products to independent booth/chair renters. If the booth/chair renter will resell such product to her own customers, a resale certificate may be given so that sales tax is not due and a wholesale sale occurs.

# **BUSINESS AND OCCUPATION (B&O) TAX (continued)**

#### Service and Other Activities B&O Tax Classification

Income from performing personal and professional services and activities not otherwise classified in Chapter 82.04 RCW is subject to B&O tax under the service and other activities classification. Many of the services typically performed by beauty operators are taxable under the service and other activities classification.

#### What activities are taxable under service and other activities B&O tax?

Income derived from providing haircuts, coloring, permanents, manicures, massage therapy, booth/chair rental, etc., is taxable under the service and other activities classification.

#### **City Business and Occupation Tax and Licenses**

Many cities impose a tax on general business activities. Although commonly referred to as a B&O tax, the Department of Revenue does not administer local B&O taxes. That tax administration is left to each city or town that imposes a B&O tax. Local B&O tax classifications may or may not mirror Washington State's B&O tax applications, exemptions, deductions, and measures of tax. Consequently, you should contact each city or town in which you conduct business regarding their specific taxes.

Approximately 160 Washington cities impose licensing requirements. For those cities imposing a tax on general business activities, the licensing requirements are in addition to the tax. Licensing fees vary from city to city. Fees may be based on a flat rate, number of employees, type of business, or square footage of office or building space.

The Washington State Department of Licensing's Master License Service operates License Information Management System (LIMS), an on-line "licensing library" providing information on federal, state, county, and city licensing for easy reference. The Internet address is: http://www.wa.gov/dol/bpd/limsnet.htm.

## **COLLECTION OF SALES TAX**

Washington's retail sales tax applies to sales of tangible personal property to consumers and charges for services defined as "sales at retail" or "retail sales." Thus, if you make a sale that is subject to B&O tax under the retailing classification, you must collect sales tax unless a specific exemption applies.

The following sales to consumers (retail sales) require collection of retail sales tax:

- ◆ Sales/cleaning and repairs of wigs, hairpieces, and extensions
- ◆ Sales of beauty/cosmetic products
- ◆ Sales of nutritional supplements
- ◆ Sales of combs, brushes, curling irons, hair dryers, etc.
- ◆ Charges for tanning
- ◆ Charges for steam or turkish baths (spas)
- ◆ Charges for tattoos

Beauty operators who make retail sales in Washington are responsible for collecting and remitting the state's retail sales tax. The tax applies to consumer purchases of retail goods and certain services. Depending on the location of sale, rates range from 7.0 to 8.8 percent.

Although buyers are subject to and must pay the sales tax when making retail purchases, sellers must collect and pay the tax to the Department of Revenue. Sellers are liable for the tax even if they do not collect it from the buyer.

#### **Sales Tax Rates - Combined State and Local Sales Tax**

Washington's retail sales tax is a combination of the state retail sales tax and the local retail sales tax. The Department distributes the local sales tax to local governments each month. Depending on the location of sale, Washington's sales tax rates range from 7.0 to 8.8 percent. The state's portion is 6.5 percent while local rates range from 0.5 to 2.3 percent.

#### Determining the location of sale

The location of sale determines the applicable sales tax rate. Generally, your business should collect sales tax at the rate for your business location.

◆ Sales of tangible personal property. For those sales consisting solely of the sale of tangible personal property, the origin of the goods determines the location of sale.

For example, a client visits a salon and receives a hair cut. Before leaving the salon, the client purchases a bottle of hair spray. The sale occurs at the salon.

# **COLLECTION OF SALES TAX (continued)**

◆ Sales of retail services. For sales of retail services, the place of sale is where the service is performed. Except for sales of tangible personal property, retail services generally include all activities defined as retail sales. For persons in the beauty industry, tanning and tattooing are specifically defined as retail sales.

#### **Itemize Sales Tax**

If you provide receipts to your customers for your sales and services, you must separately list the sales tax. Otherwise, the law conclusively presumes that you did not collect the sales tax and you will owe sales tax on the amount of the invoice. It is not sufficient to merely state the tax is included.

Clients visiting salons frequently purchase products at the same time they receive various services. For example, a client who receives a manicure may also buy a bottle of nail polish to use at home. The sales invoice must clearly identify the charge for professional services, the manicure, and the charge for the nail polish. Sales tax applies to the purchase of the polish but not the manicure. The sales tax for the nail polish must be separately identified on the invoice.

#### **Retail Sales Tax Exemptions**

Washington law provides some exemptions from the retail sales tax.

Sales tax exemptions and deductions with comparable B&O tax exemptions and deductions:

- ◆ Bad debts; and
- Returns and allowances.

Sales tax exemptions and deductions without comparable B&O tax exemptions or deductions:

Sales of tangible personal property (nonretail services) to nonresidents of Washington that are residents of:

Oregon, Montana, Alaska, Alberta, Delaware, New Hampshire, Virgin Islands, Guam, Yukon, Puerto Rico, and The Commonwealth of Northern Mariana Islands.

## PAYMENT OF SALES/USE TAX ON CONSUMABLES

In addition to understanding when to collect Washington's retail sales tax, beauty operators must also understand when they owe use tax and deferred sales tax. The terms "sales tax," "use tax," and "deferred sales tax" are frequently used interchangeably. Although the rates are the same, the application of each tax differs according to the circumstances of sale. Beauty operators making purchases for use as a consumer without payment of Washington's retail sales tax must understand when it is necessary to report and pay use tax or deferred sales tax.

Each business owes sales tax or use tax on items used in their business (and not resold without intervening use). Items consumed (used by) salons on which either sales tax or use tax is due include (but is not limited to): equipment, furniture, supplies, magazine subscriptions, combs, brushes, curling irons, hair dryers, aprons, gloves, tissues, and cosmetic products applied onto the customer.

#### **Sales Tax**

You should pay sales tax when you purchase consumable goods and services. However, if you purchase goods from a private party that is not in business or you purchase goods from out-of-state vendors (by subscription, mail order, Internet, etc.), you may not be charged sales tax. **However, you will owe use tax on such goods used in Washington.** 

Purchases of goods (and some limited services) for resale (without intervening use) are not subject to sales tax if a properly completed resale certificate is provided to the vendor. (See "Purchases for Dual Use section.")

#### **Use Tax**

Washington's use tax is a companion to the sales tax. The tax is due when goods are acquired **for use** (i.e., not for resale) in Washington without payment of the state's sales tax.

Use tax rates are the same as sales tax rates. Thus, rates range from 7.0 to 8.8 percent depending on the location. For local use tax purposes, the location of first use of the property in Washington determines which rate applies. A business reporting use tax as a consumer will generally use its location to determine which rate applies.

#### **Purchases for Dual Use**

Some businesses make bulk purchases of certain products where some of the product will be used or consumed by the business and the balance will be sold directly to the customer. Typically, the business does not know what portion of the product will be used as a consumer and what portion will be

# PAYMENT OF SALES/USE TAX ON CONSUMABLES (continued)

resold. Thus, the business is often unsure whether to pay retail sales tax on the purchase or provide a resale certificate to the vendor, and how to reconcile the proper taxability.

When a business both consumes and sells products and is not able to determine at the time of purchase whether the product will be consumed or sold, the business should determine what is the *primary nature of the product*.

If the business primarily consumes the product in question, the business should not give a resale certificate to the vendor and should pay retail sales tax.

If the business primarily resells the product, the business may issue a resale certificate for the entire purchase.

#### **Deferred Sales Tax Liability**

When the business gives a resale certificate for all purchases and thereafter consumes some of the product purchased, the business must set up the value of the article used in his or her books and records and remit to the Department of Revenue the applicable *deferred sales tax*. Deferred sales tax is the tax the business would have paid on the product had it not been purchased using a resale certificate. The deferred sales tax liability should be reported under the use tax classification on the business's Combined Excise Tax Return

#### **Tax Paid at Source Deduction**

When the business has paid tax on a purchased product, and subsequently resells some of the product, the business *must collect the retail sales* tax from its customer. When reporting these sales on the excise tax return, the business can claim a deduction on the Combined Excise Tax Return (page four, line 0130) for the taxable amount that the business paid.

#### **Credit for Sales or Use Tax Paid in Another State**

The amount of use tax legitimately due and paid to another state before the property was first used in Washington may be deducted from the amount of use tax due in Washington. You must have documentation of the tax paid in another state.

## LITTER TAX

Litter tax is imposed on those industries whose products are reasonably related to the litter problem. The rate of the litter tax is .00015 (.015%) and it applies to sales made within this state of items falling into the above categories. It is imposed in addition to any other taxes.

The litter tax applies to sales of "toiletries," which is defined as all substances such as soap, powder, cologne, perfume, cosmetics, toothpaste, etc., used in connection with personal dressing or grooming. Therefore, report your sales of beauty products under the Litter Tax classification on line 28 of the Combined Excise Tax Return. This is in addition to reporting your sales of beauty products under the retailing B&O tax classification and retail sales tax (or under the wholesaling B&O tax classification in some cases).

## **QUICK TAX REFERENCE FOR BEAUTY SALONS**

Most services performed by persons in the beauty industry are taxable as professional services. Those that are taxable as retail sales are treated so because the statute identifies those activities as retail sales. If you have a question about the tax treatment of an activity not listed, please contact the Department for further information.

#### **Tips and Gratuities**

Unsolicited tips and gratuities you receive from your customers are not subject to any state taxes; federal tax may apply to tips.

#### Service and Other Activities B&O Tax

Gross income from charges for the following activities is subject to B&O tax under the service and other activities classification (sales tax does not apply):

- ◆ Hair services, to include styling, cutting, washing, perming, coloring, tinting, waving, braiding (such as cornrows), etc.
- ◆ Massage provided by licensed massage therapists
- ◆ Manicures
- ◆ Pedicures
- ◆ Nail, acrylic, linen, silk, gel applying, maintaining, or removing
- ♦ Body hair removal
- ◆ Facials
- ◆ Cosmetic application
- ◆ Ear/body piercing
- ◆ Booth/chair rentals

#### **Collecting Retail Sales Tax**

Charges for services that are specifically defined as retail sales and sales of goods to consumers are subject to retail sales tax. Collect and remit sales tax on the following sales to consumers:

- ◆ Sales/cleaning and repairs of wigs, hairpieces, and extensions
- ◆ Sales of beauty/cosmetic products
- ◆ Sales of nutritional supplements
- ◆ Sales of combs, brushes, curling irons, hair dryers, etc.
- Charges for tanning, steam or turkish baths (spas)
- ◆ Charges for tattoos, including cosmetic tattoos

# QUICK TAX REFERENCE FOR BEAUTY SALONS (continued)

#### Pay Tax on Consumables

A salon owes either sales tax or use tax on goods used/consumed in your business, such as:

- ◆ Use of beauty/cosmetic products applied onto your customers;
- ◆ Use of combs, brushes, curling irons, hair dryers, etc., in your business;
- ◆ Tanning equipment, chairs, sinks; and
- ◆ Aprons, gloves, tissues, towels, magazines, stylebooks, cleaning supplies, etc.

## **SAMPLE TAX RETURNS**

All-City Hair Salon provides hair, tanning, massage, and nail services. In addition to the two partners, they have an independent stylist that rents a booth/chair and provides hair services. The independent's customers pay that stylist directly. The booth renter pays a flat fee of \$250 a month. The salon has a nail technician and a masseuse that are employees. Tanning beds and spas are also available to the salon's customers.

The salon has a monthly reporting frequency. During the month of September 2002, salon revenues were as follows:

#### **City and County Taxing Offices**

If your city or county has business taxes and you are located within the city limits, you will need to register with the city taxing authority, such as the city auditor. Businesses located outside city limits should register with the county taxing authority, such as the county clerk's office. Also, remember to contact your county assessor as soon as your business opens. Businesses are required to report personal property — assets used in the operation of a business — to the assessor. Personal property includes furniture, office equipment, machines, and supplies used in the course of doing business. Check your local telephone directory for the location of these offices.
